Keep Your Products Safe and Secure

## Protect your inventory and employees.

We've designed our Qwik-Fence® Pallet Rack Backing System to keep pallet racks or bulk racks securely in place. The all-steel panels surround the back, preventing unauthorized access and protecting employees and customers from dangerous spills. An open-mesh design allows for quick visual inspection without deterring sprinkler systems.

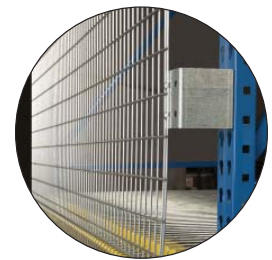

- Heavy-duty, 8-gauge, all-steel panels feature 1½" X 3" mesh grid openings.
- Galvanized brackets mount to the front of the uprights.
- All necessary hardware for assembly is included.
- Galvanized finish.
- Extra-high extension kit available to extend panels past uprights.
- Qwik-Fence is backed by a 1-year warranty.

Extra-High Extension Kit Prevents Unsafe Conditions

Quality Steel Construction is Sturdy and Long-Lasting

Heavy-Duty Brackets Ensure Panel Stability
