

QWIK-FENCE® PARTITIONS

GALVANIZED WIRE WELDED IN A GRID PATTERN CREATES AN ATTRACTIVE AND SECURE SYSTEM FOR SEPARATING SPACES

▶ UNSURPASSED ADJUSTABILITY

The Qwik-Fence® System can be easily adapted on-site to meet your specific needs.

▶ IN STOCK

We keep a large stock of our standard components in-house to ensure quick shipping for your urgent security needs.

▶ PRE-ENGINEERED ROOMS

Available in multiple configurations, the Qwik-Fence® system ships pre-packaged, making it quick to set up and easy to relocate.

Qwik-Fence® Welded Wire Partitions are an extremely tough and attractive system for separating and securing any space. Welded at each intersection—over 500 welds in a 4' x 8' panel—this wire mesh partition is substantially stronger than woven wire alternatives.

True to their name, Qwik-Fence® Partitions install 25% faster than substitutes by employing fewer parts and utilizing self-tapping screws. The partitions are easily reconfigurable, flexible and the galvanized finish will keep the system looking new for years to come.

Cylinder Lock

Multiple sturdy door options available
