

SAF-T-FENCE® FACILITY ACCESS CAGE

SECURE YOUR FACILITY WHILE PROTECTING YOUR EMPLOYEES, VISITORS AND INVENTORY

At Folding Guard, we're all about safety and security. Our Facility Access Cages – made with Saf-T-Fence® Partitions – are a cost-effective solution for safeguarding your facility.

Facility Access Cages, or Driver Cages, allow you to monitor and control guest access to your facility, protect visitors from forklift traffic & dangerous machinery, and protect your inventory from theft. The wire mesh construction of the enclosure allows for visibility and ventilation and doesn't require changes to HVAC, lighting or sprinkler systems.

A WIDE VARIETY OF CONFIGURATIONS ARE AVAILABLE

- Optional Service Window Kit
- Optional Roof System
- 2- or 3-sided enclosure
- Pushbar (warehouse side) / Keyed Lock (inside enclosure) Door
- Other Locking and Hardware Options Available
